

NEXT GENERATION VERTICAL TRANSPORTATION  
*with the state of Advanced Technology*

**BONUM<sup>®</sup>**

**BONUM<sup>®</sup>**

BONUM INDUSTRIES PVT. LTD. Feel proud to provide comfort, easy & luxury to the human kind by being in the Industry of elevators. Elevator is no more just a luxury, but rather a necessity to lead a hectic & fast life. Bonum Elevators is a leading manufacturer & installer of high - quality world class elevators catering to different applications. With an experience of more than a decade, Bonum Elevators boasts of efficient team of staff and engineers.

Bonum Elevators synonymous with reliability & safety was founded for servicing & after sales of other key brands of elevators. With early acceptance & trust, we started designing, manufacturing & installation of elevators by our own brand- Bonum Elevators. In a short span, we have been successful in providing our products to array of Industries in Private, Government & Semi-Government Organizations.

We offer state of the art Escalator and moving walks with multiple options and configurations.

In addition to the innovative design to enhance the looks of the product, we back it up with detailed engineering to provide smooth transit with energy efficiency. We back our products with competent workforce for execution of projects and also for maintenance. Our workforce is trained to provide suitable support whenever necessary.

*Vision:*

To be an organization that is perpetually innovative, reliable and sustainable delivering value to its customers through its services and best quality.

## Machinery

Our Machineries for the productions high quality Elevator Products

STRENGTH | RELIABILITY | AMPLIFIED

## Passenger Elevators

We are the manufacturer of highly efficient Passenger Elevators using premier Raw Material. Particularly designed by our professionals these lifts are used for carrying passengers from one floor to another. These lifts are designed in different forms like power coated or stainless steel with Matt finished stainless steel by our professionals.

## Goods Elevators

For carrying various sized goods and equipment from one floor to another, we design and develop Goods Elevators. These elevators are designed with utmost precision and thus, ensure noiseless operation. Clients appreciate these goods elevators for having excellent load bearing capacity with slow speed and smooth running operation.

## Hospital Lift

We offer Hospital Lifts for Hospitals for easy transportation of bulky equipments as well as patients. These are apt to meet the modern day hospital needs. These have sophisticated looks with high functionality. Hospital Lifts are best to carry gurneys, stretchers as well as wheel chairs. We offer these at attractive prices and in various models.

### Passenger Elevators

We are one of the renowned manufacturers and suppliers of elevators that have gained wide appreciation for operational excellence. These hydraulic elevators are precision engineered using advanced technology to offer best performance. They are compact in size and includes trolley mounted steel frame, hand pumps, top platform, hydraulic cylinders and scissors kind of steel bracing. Also, they can carry load holding at any height as a safety attribute to avoid any accidental slide down of the platform.

### Goods Elevators

We are known for our effective variety of MRL Elevators. which do not required any space to save and machine room. These products are manufactured under the guidance of our quality experts and have various qualities like high performance, light weighted, efficient, reduced motor size, tensile strength and long life. We offer these products with high rates of travel than hydraulic elevators.

### Hospital Lift

Dumb waiter systems have always been critical in restaurants, hotels and other food service to make sure the food gets to the customer piping hot and without getting dropped on the stairs, and in all cases the service lift is about the right tool for the job, keeping any passenger lifts clear of "backstage work going on and designed to take up a minimum of space with a maximum of load carrying capability.

## LIFT MOTOR PARTS AND EQUIPMENTS

### COMPLETE SET LIFT GEAR MACHINE :

We offer you the suitable complete set of Lift Gear Manufactured by M/s. **BONUM**, both have more than Eighteen years experience in the field of Manufacturing Elevator Traction Machine and Parts to urban development. As an Indian leader in the industry. The Company is dedicated to excellence in products and customer services.

## LIGHTING SYSTEM AT THE SKIRT GUARD

The lighting system at the skirt guard is to provide better visibility at the steps. Thus, it also enhances the safety of the passengers.

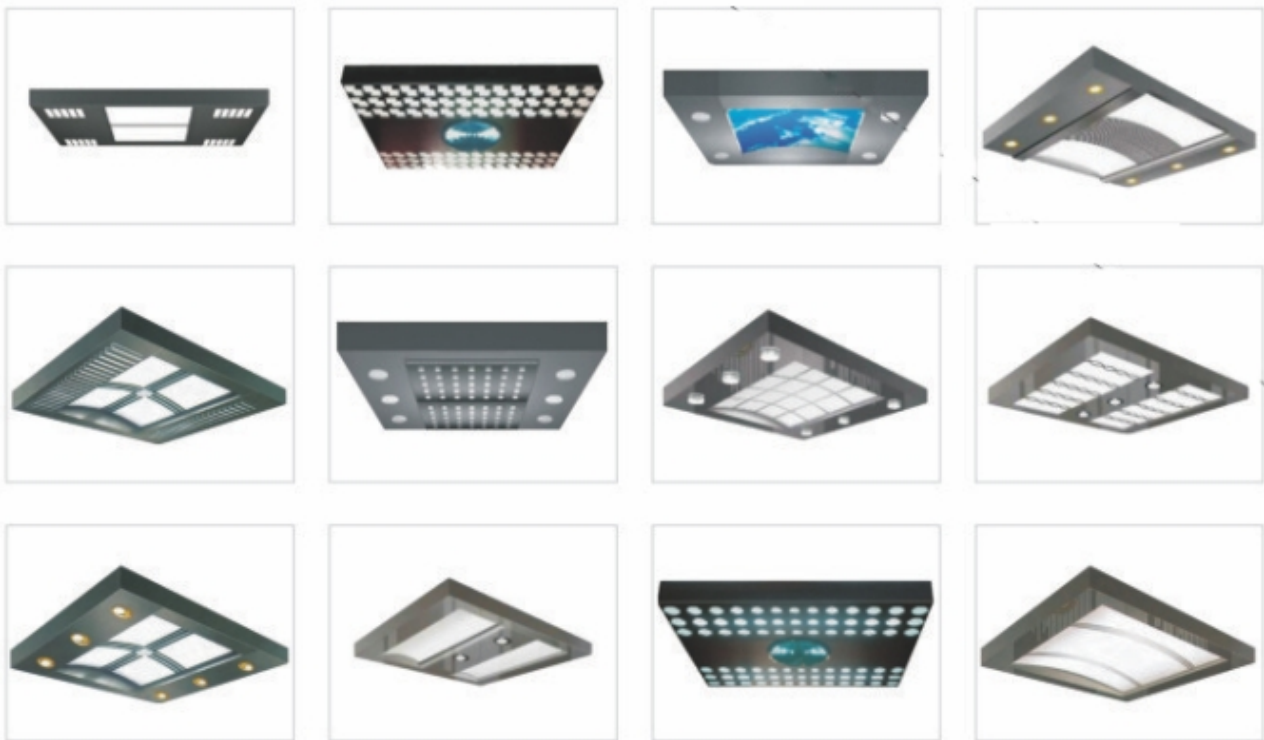

## CABIN INTERIORS

# BONUM<sup>®</sup>

### FALSE CEILING :

False ceiling are designed artfully to enhance the look of the cabin also ensuring that it complements well the make and color of the cabin and adds grace to the elevator. They are available in both prefinished mild steel and stainless steel finish with hairline, moon rock, honey comb and mirror finish depending upon the building aesthetics. LED and CFL lighting options are available to choose from with made to order lighting panels to appearance further

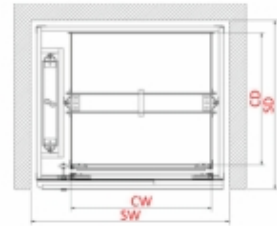

### FLOORING :

Premium quality material spelling durability, ability to take heavy foot traffic with easy maintenance options are used for flooring of elevators. Anti-Skid PVC flooring options are available in wooden Marble, sandalwood and many other finishes to augment the aesthetic appeal of the cabin.

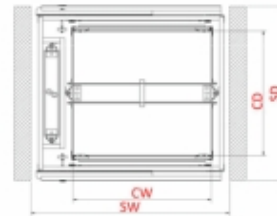

## Goods Lifts with door entrances on the front only

100kg	1000	1000	1000	1200	1400*	1200	N/A	2350	2050
150kg	1000	1000	1000	1200	1400*	1200	N/A	2550	2250
200kg	1000	1000	1000	1200	1400*	1200	N/A	2550	2250
250kg	1000	1000	1000	1200	1400*	1200	N/A	2650	2250
300kg	1000	1000	1000	1200	1400*	1200	N/A	2650	2250

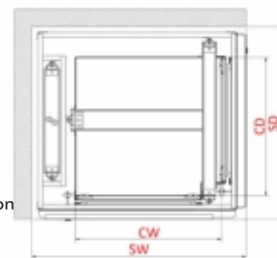

## Goods Lifts with door entrances on the front and back (thru car arrangement)

100kg	1000	1000	960	1200	1400*	1200	N/A	2350	2050
150kg	1000	1000	960	1200	1400*	1200	N/A	2550	2250
200kg	1000	1000	960	1200	1400*	1200	N/A	2550	2250
250kg	1000	1000	960	1200	1400*	1200	N/A	2650	2250
300kg	1000	1000	960	1200	1400*	1200	N/A	2650	2250

## Model 2050 & 2100 Lifts with door entrances on the front and side (adjacent car arrangement)

50kg	400	310	400	600	710*	550	900	2350	2050
50kg	530	410	500	800	910*	550	900	2550	2250
50kg	630	510	600	800	1010*	750	900	2550	2250
100kg	830	710	800	800	1230*	980	900	2650	2250

Incremental alteration to the car dimensions of 50mm can be made, with appropriate addition to the shaft and headroom measurements.

Bespoke car options are available for specific load dimensions or weight or where the shaft or headroom restricts installation of a standard lift.

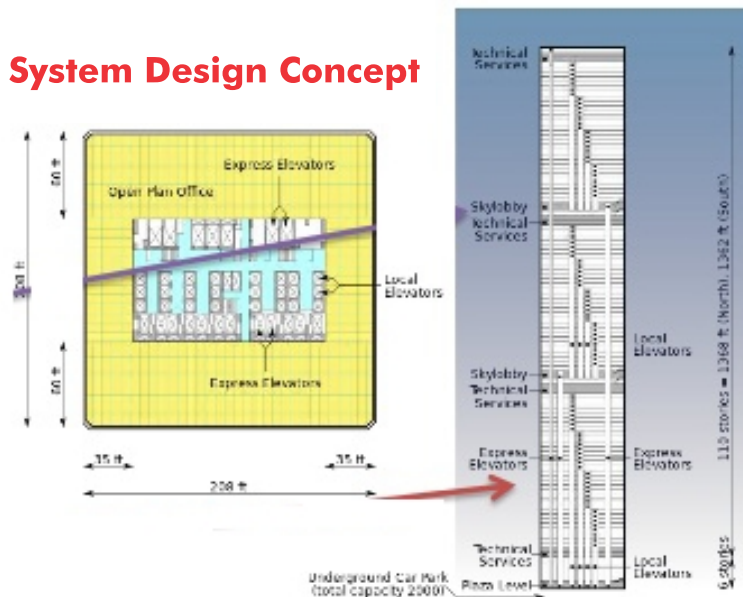

\*Add 150mm to the shaft width for under driven models. Car fitted with safety gear, as required by the site conditions, may also need increased shaft width.

Bespoke designs, altering the sill and car heights, will affect the headroom.

## 1. Passenger lifts

Passenger elevator is designed to move people between floors of a building. Their capacity is related to available floor space. Upto 8-10 floors these operate at 1m/s and above 10 floors the speed starts at 2.5m/s to 10 m/s.

### System Design Concept
